

# XO® PRIVATE LINE

*High-Bandwidth, Dedicated Connectivity for Data Applications*

XO DATA SERVICES

**Get high-speed, dedicated point-to-point connections so you can securely transfer data between locations. Simplify your communications with full time availability, 24x7 network monitoring, flexible terms, and high-capacity bandwidth choices.**

**With Private Line Service, you can:**

- Secure sensitive information with private connectivity
- Instantly transmit mission-critical data with point-to-point connectivity
- Streamline business communications by using the XO nationwide fiber optic network
- Increase productivity with 24 x 7 guaranteed network availability
- Simplify your accounts payable with one invoice for all your XO services.

**Private Line:**

- Helps control your communications expenses with flat-rate billing
- Minimizes downtime with continuous network monitoring.

Choose from among several high capacity bandwidth options for your private network. Whether it's TI, T3, or OC-N, this service

provides dedicated point-to-point connectivity, thereby reducing the bottlenecks associated with switched public networks. Private Line Service is for companies that mean business.

**The Private Line Advantage**

Benefit from both privacy and flexibility. No matter where you are or where you need to send data, XO has you covered:

- On-Net to On-Net: Both ends of the circuit connects to the XO network
- On-Net to Off-Net: One end of the circuit connects to the XO network
- Off-Net to Off-Net: Neither end of the line connects to the XO network.
