

XO Communications will no longer be offering Web Hosting service. To allow customers to continue receiving service and avoid disconnection, customer agreements will be assigned to the third party vendor who already provides the service, which will be DigitalSpace (a DBA of Hostopia). Your agreement will be assigned to DigitalSpace/Hostopia effective March 1, 2019. At that time, you will need to login into DigitalSpace.net to add your billing information. If you have any questions, please contact:

- XO Communications/Verizon Customer Service at 1-888-200-7346; or
- DigitalSpace (a DBA of Hostopia) at 1-888-740-0502 or support@digitalspace.net.

To avoid disruption of service, starting March 1st and before March 31st, you must update your billing and contact information via your portal. You can do this starting March 1st in one of two ways:

Option 1: Control Panel

Option 2: Contact DigitalSpace.net at 1-888-740-0502

Please mark your calendars that you should update your billing with DigitalSpace.net between March 1st and March 31st to avoid disruption of your service. Additional notifications will be sent via email so please be on the lookout and please add DigitalSpace.net to your preferences to avoid these important notifications going into your spam folder.
